## RACING PRODIGY OVERVIEW

Racing Prodigy has opened motorsports to all.

Historically, the cost of pursuing a career in motorsports has been so daunting that 99%+ of people never realize the opportunity or even dare dream of becoming a professional racer.

How did we change this?

It starts with sim racing. Millions compete, and we know, firsthand, sim racing skills transfer to the real race cars on real racetracks. This is why we partnered with game publishers, offering esports competitions across many sim racing games, enabling us to identify prodigies that may otherwise go undiscovered. These sim racers, many of whom will prove they can be the world's best in real-life (IRL) racers, will have the opportunity to earn one of many Prodigy Passes™ – the golden tickets of motorsports - to then compete in real race cars at Prodigy Week™.

[Prodigy Week, Season 1, Part 2](#), was held at Atlanta Motorsports Park, one hour drive north of Atlanta, Georgia, May 13-15 – 20 Prodigy Pass winners competed in Radical SR1s, in the fitness center, skid pad, and autocross course with the major focus on track in the Radical SR1.

Following Prodigy Week, the inaugural Prodigy Draft™ saw 24 drivers selected by six Prodigy Racing Teams [live from the Williams Racing Fan Zone in downtown London](#). These 24 drivers receive paid pro contracts to race in the Prodigy Three Championship, the first of three tiers of real-world racing in the PRL, starting November 16-17 at NOLA Motorsports Park.

These paid P3 drivers will fill the grid and compete for significant prize money in the first racing series made up of those who earned their way in—rather than bought their way in. (One cannot buy a drive in this series.) For those who excel on track in our P3 real-world series, there is the opportunity to move up to the second tier of real-world racing in 2025, also operated and controlled by Racing Prodigy. The goal is to establish three tiers of real racing, completing our e2Real™ league. For those with the skill, you should be able to build a career in motorsports with us, without the need to hunt for your own sponsors to stay in the sport.

This is why we have created the Prodigy Racing League - the world's first e2Real sports league. This league is the first in motorsports with a real-world ladder, open to all, regardless of bank account size or connections.

To continue to grow a new motorsport, we the e2Real league need support from the sim racing community via esports participation and social following and from partners who desire to transform motorsport. For 2024, more companies are joining us in our work to open motorsports to those with the skill. Thank you to [Asetek SimSports®](#), [MPI](#), [PitFit Training](#), [SIM-LAB](#), [GRID Engineering](#), and [Racers Physio](#) who helped kick-off the PRL. We added additional partners in PRL Season 1 Part 2, [Mazda](#), [SuckerPunch](#), [Women in Motorsports North America](#), [Toyo Tires](#), and [Advanced SimRacing](#) to our family and recently added [Williams Esports](#), [Thibaut Courtois](#), [G2 Esports](#), and [Guild Esports](#) as Prodigy Racing Teams. We have launched an [open coaching marketplace](#) on RacingProdigy.com to generate more support for the racers and revenue to fund the league. We are not handpicking sim racers to offer their coaching services; we are creating an open marketplace and ecosystem that allows those with the skill and effort to participate and flourish. With these efforts and more, we work to greatly expand the sport we love.

The only way we accomplish this is together.
