RACING PRODIGY OVERVIEW

Racing Prodigy is opening motorsports to all.

Historically, the cost of pursuing a career in motorsports has been so daunting that 99%+ of people never realize the opportunity or even dare dream of becoming a professional racer.

How can we change this?

It starts with sim racing. Millions compete, and we know, firsthand, sim racing skills transfer to the real race cars on real racetracks. This is why we partnered with game publishers, offering esports competitions across many sim racing games, enabling us to identify prodigies that may otherwise go undiscovered. These sim racers, many of whom will prove they can be the world's best in real-life (IRL) racers, will have the opportunity to earn one of many Prodigy Passes™ – the golden tickets of motorsports - to then compete in real race cars at Prodigy Week™.

[Prodigy Week, Season 1, Part 1](#) was held at Atlanta Motorsports Park, one hour drive north of Atlanta, Georgia, October 30 – November 1, 12 Prodigy Pass winners competed in Radical SR1s, in the fitness center, skid pad, kart track, and autocross course with the major focus on track in the Radical SR1.

Prodigy Week, Season 1, Part 2, is upon us. From May 13-15, at least 18 Prodigy Pass winners will compete at Atlanta Motorsports Park in the Radical SR1s, autocross, skid pad, kart track and fitness center.

Racing Prodigy plans to draft up to 24 racers who competed at Prodigy Week Part 1 and 2 during the inaugural Prodigy Draft™ to fill a grid and the first racing series comprised of those who earned their way in – rather than bought their way in. (One cannot buy a drive in this series.) We anticipate significant prize money for this professional series, with the goal of paying contracts to each driver, just like other professional sports leagues. And for those who excel on track within our IRL series, Racing Prodigy's goal is to have them move up to a second tier of a real-world racing series the following year, which would also be operated and controlled by Racing Prodigy. The end game is to have three levels of real racing, completing our e2Real™ league. For those with the skill, you should be able to make a career in motorsports with us, and not have to hunt for your own sponsors to stay in the sport.

This is why we have created the Prodigy Racing League - the world's first e2Real sports league. This league will be the first in motorsports with a real-world ladder, open to all, regardless of bank account size or connections.

To build a new motorsport, we the e2Real league needs support the sim racing community via esports participation and social following and from partners who desire to transform motorsport. For 2024, more companies are joining us in our work to open motorsports to those with the skill. Thank you to [Asetek SimSports@](#), [MPI](#), [PitFit Training](#), [SIM-LAB](#), [GRID Engineering](#), and [Racers Physio](#) who helped kick-off the PRL™. We are excited to welcome [Mazda](#), [SuckerPunch](#), [Women in Motorsports North America](#), and [Advanced SimRacing](#) to our family. We may seek up to six team owners early in our league creation to partner with us, aiding us in offering these opportunities. We have launched an open coaching marketplace on [RacingProdigy.com](#) to generate more support for the racers and revenue to fund the league. We are not handpicking sim racers to offer their coaching services; we are creating an open marketplace and ecosystem that allows those with the skill and effort to participate and flourish. With these efforts and more, we work to greatly expand the sport we love.

The only way we accomplish this is together.
