## RACING PRODIGY OVERVIEW

Racing Prodigy has set out to open motorsports to all.

Historically, the cost of pursuing a career in motorsports has been so daunting that 99%+ of people never realize the opportunity or even dare dream of becoming a professional racer.

How can we change this?

It starts with sim racing. Millions compete, and we know, firsthand, sim racing skills transfer to the real race cars on real racetracks. This is why we partnered with game publishers, offering esports competitions across many sim racing games, enabling us to identify prodigies that may otherwise go undiscovered. These sim racers, many of whom will prove they can be the world's best in real-life (IRL) racers, will have the opportunity to earn one of many Prodigy Passes™ – the golden tickets of motorsports - to then compete in real race cars at Prodigy Week™.

Prodigy Week, part 1, will be held at Atlanta Motorsports Park, one hour drive north of Atlanta, Georgia, October 30 – November 1, with the plan for the Pass winners to compete in Radical SR1s, and briefly in the fitness center, skid pad, autocross course, and sims. Focus is the Radical SR1. After this three-day event at the racetrack, Racing Prodigy plans to add more Prodigy Passes leading to Prodigy Week, part 2, in April 2024, also at Atlanta Motorsports Park.

The plan is then to draft racers from Prodigy Week part 1 and 2 at our first Prodigy Draft™ to fill a grid and the first racing series comprised of those who earned their way in. One cannot buy a drive in this series. We anticipate significant prize money for this professional series, with the goal of paying contracts to each driver, just like other professional sports leagues. And for those who excel on track within our IRL series, Racing Prodigy's goal is to have them move up to a second tier of a real-world racing series the following year, which would also be operated and controlled by Racing Prodigy. The end game is to have three levels of real racing, completing our e2Real™ league. For those with the skill, we want them to be able to make a career with us and not have to hunt for their own sponsors to stay in the sport.

This is why we have created the Prodigy Racing League - the world's first e2Real sports league. This league will be the first in motorsports with a real-world ladder, open to all, regardless of bank account size or connections.

For us to execute our plans, we will need interest and support from the sim racing community and participation via esports entries. We will provide both free-to-enter and pay-to-enter competitions (or a mix) to help fund the league. We have secured our first partners – Asetek SimSports®, SIM-LAB, and GRID Engineering – who share our passion to provide opportunities to those deserving and unlock the potential of motorsports. We may seek up to six team owners early in our league creation to partner with us, aiding us in offering these opportunities. We are launching an open coaching marketplace on RacingProdigy.com to generate more support for the racers and revenue to fund the league. We are not handpicking sim racers to offer their one-on-one coaching services, group coaching, data packs, track maps and more; we are creating an open marketplace and ecosystem that allows those with the skill and effort to participate and flourish. With these efforts and more, we work to greatly expand the sport we love.

The only way we accomplish this is together.

## **THE PRIZES AND OPPORTUNITIES FOR REAL-WORLD RACING**

### *Prodigy Passes to Prodigy Week. Two Paths.*

Recipients of a Prodigy Pass will be eligible to compete at Prodigy Week, part 1, planned for Atlanta Motorsports Park in a Radical SR1, October 30 – November 1, 2023.

The official winner of the A Final on Saturday, July 29, will be awarded the first mobile Prodigy Pass, which includes free air travel to and from Atlanta Hartsfield International Airport, transport, food, and lodging in Georgia, United States. Full details will be provided upon request.

In addition to winning a PRL esports competition, Racing Prodigy members (RPMs) who compete in the A Final and B Final have an additional opportunity to earn a Prodigy Pass. How it works:

- RPMs who finish among the top 500 of a PRL esports competition are eligible. Racing Prodigy will e-mail the RPMs who are eligible using the email address on file with Racing Prodigy.
- Those eligible may record responses to questions and submit a one-minute (max) video, as well as respond in writing to a questionnaire (questions will be announced on RacingProdigy.com and on Racing Prodigy social channels after the tournament ends). The RPM submissions (video and questionnaire) are due on the 7<sup>th</sup> of the month following the conclusion of the esports competition. For this PRL SK Racing X30 Miami Cup competition, responses are due the 7<sup>th</sup> of August.
- Racing Prodigy will review the submissions to select up to 10 finalists from each PRL esports competition. (If a given month had three tournaments conclude, Racing Prodigy would select up to 30 finalists; if there were two competitions that concluded in a given month, Racing Prodigy would select up to 20 finalists for the committee to select from, crowning one winner.)

- Racing Prodigy will submit these videos to the “Prodigy Search Committee” to select One (1) recipient of a Prodigy Pass, announced on Racing Prodigy’s [Twitch channel](#) by end of the month (e.g., August).

This is a collective effort to better ensure a prodigy may not slip by simply by not yet being the fastest in these sim racing competitions and further open motorsports.
