The Rules are a contract between each iRacing member, iRacing.com Motorsport Simulations, LLC, Racing Prodigy member, and Racing Prodigy, Inc. RACING PRODIGY OVERVIEW

Racing Prodigy has set out to open motorsports to all.

Historically, the cost of pursuing a career in motorsports has been so daunting that 99%+ of people never realize the opportunity or even dare dream of becoming a professional racer.

How can we change this?

It starts with sim racing. Millions compete, and we know, firsthand, sim racing skills transfer to the real race cars on real racetracks. This is why we partnered with game publishers, offering esports competitions across many sim racing games, enabling us to identify prodigies that may otherwise go undiscovered. These sim racers, many of whom will prove they can be the world's best in real-life (IRL) racers, will have the opportunity to earn one of many Prodigy Passes™ – the golden tickets of motorsports - to then compete in real race cars at Prodigy Week™.

Prodigy Week, part 1, will be held at Atlanta Motorsports Park, one hour drive north of Atlanta, Georgia, October 30 – November 1, with the plan for the Pass winners to compete in Radical SR1s, and briefly in the fitness center, skid pad, autocross course, and sims. Focus is the Radical SR1. After this three-day event at the racetrack, Racing Prodigy plans to add more Prodigy Passes leading to Prodigy Week, part 2, in April 2024, also at Atlanta Motorsports Park.

The plan is then to draft racers from Prodigy Week part 1 and 2 at our first Prodigy Draft™ to fill a grid and the first racing series comprised of those who earned their way in. One cannot buy a drive in this series. We anticipate significant prize money for this professional series, with the goal of paying contracts to each driver, just like other professional sports leagues. And for those who excel on track within our IRL series, Racing Prodigy's goal is to have them move up to a second tier of a real-world racing series the following year, which would also be operated and controlled by Racing Prodigy. The end game is to have three levels of real racing, completing our e2Real™ league. For those with the skill, we want them to be able to make a career with us and not have to hunt for their own sponsors to stay in the sport.

This is why we have created the Prodigy Racing League - the world's first e2Real sports league. This league will be the first in motorsports with a real-world ladder, open to all, regardless of bank account size or connections.

For us to execute our plans, we will need interest and support from the sim racing community and participation via esports entries. We will provide both free-to-enter and pay-to-enter competitions (or a mix) to help fund the league. We have secured our first partners – Asetek SimSports®, SIM-LAB, and GRID Engineering – who share our passion to provide opportunities to those deserving and unlock the potential of motorsports. We may seek up to six team owners early in our league creation to partner with us, aiding us in offering these opportunities. We are launching an open coaching marketplace on RacingProdigy.com to generate more support for the racers and revenue to fund the league. We are not handpicking sim racers to offer their one-on-one coaching services, group coaching, data packs, track maps and more; we are creating an open marketplace and ecosystem that allows those with the skill and effort to participate and flourish. With these efforts and more, we work to greatly expand the sport we love.

The only way we accomplish this is together.

Additional Rules and Requirements During Stages 2 and 3 of the Competition (Racing)

Semi-finalists and finalists are required to be on a pre-qualifying Zoom call with Race Control to go over race guidelines, receive instructions, and so Race Control can ensure the person participating is the same person who registered. Failure to comply will result in removal from the event. Drivers must use a **web camera** or **mobile phone** with the driver, and their face visible (VR is fine if used) operating the wheel, or other input, clearly in view during all semi-finals and final races. Drivers are required to provide a 16:9 video feed (native 1080p preferred) of them driving at all times during warm-ups, qualifying, the semi-finals, and the final races. An output which has visible black bars (i.e. “letterbox” or “pillar box”), or is squeezed/cropped (i.e. reformatting a different aspect ratio into a 16:9 format), is not permitted.

Drivers are required to use a **broadband internet connection** (which is recommended to be wired as opposed to Wi-Fi). Drivers may be required to provide evidence of their internet speeds at any time. Race Control will monitor ping, quality, and stability of connections during the races and reserves the right to remove a driver from a session if they judge the connection to be inadequate.

Each Driver is responsible for ensuring that they have the necessary equipment (including hardware and software) to effectively participate in the semi-finals and finals. As is the provision, setup, maintenance, configuration, and infrastructure required by such a Racing Station plus any cost(s) associated with meeting such obligations.

Participants may not use any equipment or aids (digital or otherwise) during Sessions which are not considered by Racing Prodigy to be essential in meeting the obligations of the Racing Prodigy Competition Rules or [Racing Prodigy's Sporting Code](#), except for pillows or other such devices used to solely aid Driver comfort or devices which have been expressly authorized by Officials.

Any **branding** visible on Driver equipment, clothing or otherwise must be visible in warm ups and qualifying prior to the race so Racing Prodigy officials may review in the event it is considered inappropriate/ or offensive. We must keep in mind that our spectator sport is family friendly. If there is any question of whether the dress will be appropriate, please email your inquiry to support@RacingProdigy.com 48 hours prior to the livestream.

Racing Prodigy accepts no responsibility for any damage, wear or otherwise caused to Racing Stations by taking part in the Competition shall have no course of action in such circumstances.

PENALTY SYSTEM

Penalties on and off-track

Penalties may be assessed post-race. Racers who believe a penalty should be assessed have the right to protest; race stewards will not proactively assess on-track issues without a driver submitting an official protest in a timely manner (see Protests Section below).

Our penalty system is as follows:

Warning:	Given for minor incidents, such as a small collision or going off track without gaining an advantage. No penalty will be issued, but drivers will be notified that their behavior is being monitored.
5-second penalty:	Given for more serious incidents, such as causing a collision or exceeding track limits to gain an advantage. A 5-second penalty will be added to the offending driver's race time.
10-second penalty:	Given for significant incidents, such as causing a multi-car collision or repeatedly exceeding track limits to gain an advantage. A 10-second penalty will be added to the offending driver's race time.
20-second penalty:	Given for severe incidents, such as deliberately causing a collision or ignoring multiple warnings for unsportsmanlike behavior. A 20-second penalty will be added to the offending driver's race time.
Disqualification:	Given for the most serious incidents, such as cheating or exploiting the game, or repeatedly ignoring warnings and penalties. The driver will be removed from the race and will not be eligible to receive any prizes.

In addition:

- *On- or off-track behavior:* It is important that the drivers keep their wits about them. We do not support unsportsmanlike conduct; anyone who does anything that we deem unjust will be penalized.
- *In-game penalties:* Penalties given to a driver via the game should be respected but are able to be protested just like any other penalty.

PROTESTS

Protest Form

If a driver feels as though he or she has been wrongfully penalized, or another driver should be penalized, they must fill out the Racing Prodigy official protest form, found on the official PRL tournament Discord server, within two (2) hours after the end of the race. You are not allowed to make protests on another's behalf or against someone for an incident that did not involve you.

The driver being protested may be contacted by the stewards (via Discord direct message) if their point of view is deemed necessary. The protested driver then has 1 hour to submit his/her own evidence. A ruling can be made by the Stewards without needing the protested driver's point of view.

CHEATING & EXPLOITS

Cheating

Cheating will not be condoned, no matter the severity, under any circumstance. Any driver who is caught cheating will be disqualified immediately from the competition and will be indefinitely banned or suspended from all Racing Prodigy activities and his or her Racing Prodigy membership revoked.

Examples of cheating include, but are not limited to, add-ons outside of the game that provide an advantage, managing to clear a penalty before the start/finish line, and any other advantage that could be gained outside of the simulator.

Exploits

Exploiting the game, just like cheating, is not tolerated and any driver caught doing so will be disqualified from the competition and will be indefinitely banned or suspended from all Racing Prodigy activities with their Racing Prodigy membership revoked.

An example of exploits includes purposely removing the braking boards/markers on track during a race, or clearing penalties on previous laps to gain a speed advantage the next lap.

OTHER

In the event of any discrepancy or inconsistency between the terms and conditions of these English Rules and disclosures or other statements contained in any Competition-related materials, including, but not limited to any other official Racing Prodigy versions (in other languages) of these Rules and/or point of sale, television, print or online advertising, the terms and conditions of these English Rules shall prevail, govern and control to the fullest extent permitted by applicable law.

Any attempt or suspected attempt to enter this Competition in a fashion not authorized by these rules shall be deemed to be tampering and is void. Entries that do not conform with, or satisfy any, or all, of these Competition rules, as determined in the Racing Prodigy's absolute discretion, will be judged invalid and disqualified.
